1. Claims 1-4 and 9 are allowable over the prior art of record.
2. Applicants' attention is hereby directed to the stray right parenthesis ")" that is on line 3 of independent claim 9 immediately after the word "bore." Correction is hereby **required**.
3. The following is a quotation of the second paragraph of 35 U.S.C. 112:  
  
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claim 11 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 10-11 of independent claim 11, the negative limitation "without performing steps of degreasing and sintering between the step of injection molding and the step of cooling the injection-molded compact" is indefinite and unclear in context in that it is not clear if the negative limitation is meant to state that "steps of degreasing and sintering" are never performed at all in the method of claim 11, or that "steps of degreasing and sintering" could be performed in the method of claim 11 as long as they are not performed "between the step of injection molding and the step of cooling the injection-molded compact."

Art Unit: 3662

5. Claim 11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
